

An Evening with

DOUG TALLAMY

Professor, Chair of Entomology and Wildlife Ecology, University of Delaware

author of

Bringing Nature Home

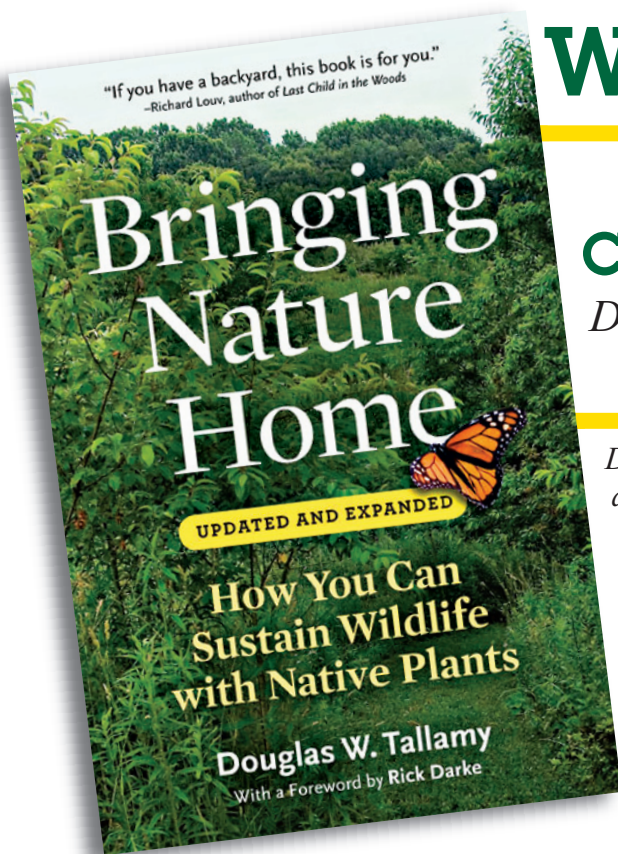

How You Can Sustain Wildlife with Native Plants

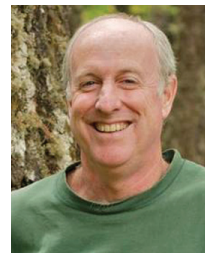

WEDNESDAY, OCT. 5

**COREY AUDITORIUM
CARLISLE PUBLIC SCHOOL, 7PM**

*Doors open at 6:30. Free and open to the public.
Parking and access off Church Street.*

Dr. Tallamy, a noted lecturer, has a following among gardeners and environmentalists throughout the country. He presents a well-researched and engaging case for protecting our “wild” places and preserving our nation’s biodiversity. Learn how the link between native plants and native wildlife is important for human well-being and what we can do to increase biodiversity in our own back yards.

*Sponsored by the Carlisle Conservation Foundation;
Susan Zielinski Natural Science Fund, Gleason Public Library;
Carlisle Garden Club; & Carlisle Conservation Commission.*
